

Specialized Medical Training and Continuing Education for EMTs

Welcome to the pinnacle of emergency medical training and education. Our academy is dedicated to equipping existing EMTs with advanced skills and up-to-date knowledge, ensuring excellence in patient care and emergency response. We understand the challenges you face on the front lines, which is why we offer a suite of NAEMT classes designed to enhance your competencies and expand your capabilities in the field. Join us to elevate your career, serve your community better, and meet the evolving demands of emergency medical services.

Our NAEMT Course Offerings:

Prehospital Trauma Life Support (PHTLS): 16 CEUs

PHTLS courses are the gold standard in trauma care, developed by NAEMT to promote excellence in trauma patient management by all providers involved in the delivery of prehospital care. Our PHTLS class is a dynamic, intensive course that combines the latest evidence-based practices and guidelines for trauma care.

Advanced Medical Life Support (AMLS): 16 CEUs

Recognized as the premier program for medical assessment and treatment, AMLS takes a comprehensive approach to patient assessment and management. This course hones the decision-making skills of EMTs in dealing with a wide array of medical conditions.

Emergency Pediatric Care (EPC): 16 CEUs

Designed to provide EMTs with the knowledge and skills necessary to effectively manage critically ill infants and children, EPC focuses on practical, evidence-based interventions to save young lives in crisis.

Geriatric Education for Emergency Medical Services (GEMS): 16 CEUs

GEMS provides the tools to understand the unique medical, social, environmental, and communications challenges of older adults. Develop the assessment strategies and techniques to provide this population with superior care.

EMS Safety: 8 CEUs

Ensuring your safety and the safety of your team is paramount. Our EMS Safety course teaches best practices in risk identification, avoidance, and management for EMS practitioners.

Advanced Certification Courses:

Advanced EMT (AEMT)

Our Advanced EMT course provides the next level of training, including more advanced skills and the administration of IV fluids and some medications. It's a crucial step up from EMT for those looking to increase their scope of practice.

Paramedic

The pinnacle of prehospital medical training, our Paramedic course is rigorous and comprehensive, designed to produce the highest level of prehospital medical professional. This program will significantly expand your knowledge base and skill set.

Why Choose Our Academy?

- **Expert Instructors:** Learn from seasoned professionals who bring real-world experience to the classroom.
- **State-of-the-Art Facilities:** Train with the latest equipment in a facility designed to simulate real-life scenarios.
- **Flexible Scheduling:** We offer classes at times that can fit into the busy schedules of working EMTs.
- **Continued Support:** Our commitment to your education doesn't end with certification. We offer resources and support to help you throughout your career.
